Natural Ingredients

Don Pepino uses only garden fresh tomatoes, plucked from the vine at their peak of ripeness. Cholesterol free corn oil and a blend of imported spices are mixed with the fresh whole tomatoes to create our unique delicious tasting pizza sauce. Our unique processing system captures all the natural flavors and seals in an extraordinary fresh taste. Unlike many of our competitors, our recipe never includes paste, purees, preservatives, starches, gums, sugar, artificial color, citric acid, or fillers.

Consistency

Don Pepino's four-step quality control procedure insures our natural pizza sauce will provide you with the same wonderful fresh flavor, can after can.
